Wireless **N**900 Home Router

Daul Band + Gigabit Switch + USB Media Streaming

Dual Band Wireless N900 router for HD video streaming and onling gaming.

Expanded Range and Capacity

The ESR900 Wireless N900 Home Pod is an Xtra Range Dual Band (2.4 GHz and 5 GHz), 4-Port Wireless-N Router with wireless speeds up to 450 Mbps on both frequency bands. The ESR900 is ideal for those who need to stream HD video to other devices in the home or for gamers who want optimal online gaming without lag.

Gigabit Wired Speed & Shared USB Media

The ESR900 includes a built-in 4-Port Gigabit Switch and Gigabit WAN port for 10x faster throughput than Fast Ethernet making large file transfers, HD video and other media streaming incredibly fast. USB port to attach storage so connected devices in your home can access and stream video, music, and other media.

Industry-Standard Wireless Security

The ESR900 supports several security features and settings including industry-standard WPA/WPA2 wireless encryption to prevent unauthorized access to the network; a SPI (Stateful Packet Inspection) firewall to block malicious software from the Internet from accessing networked devices; MAC Address filtering to grant only known computers and devices network access; and URL filtering to block access to unwanted or offensive websites.

USB Media Anywhere with EnShare™

Attach a storage device to the router's USB port and with EnShare you can start sharing media content like photos, music, or videos throughout the home or even access and download that content when you're away from home to your mobile devices like smartphones or tablet and laptop PCs. EnShare also enables you to upload files to your attached storage device anywhere you can get an Internet connection.

Access files **remotely** with

EnShare™
